

"Hearing God"

1. For what sorts of decisions have you sought an answer from God concerning what was the right choice to make? Tell of a time when you received an answer. Tell of a time when an answer was not found.

2. Read Acts 16:6–10. We're not told exactly how the Spirit prevented Paul's company from preaching in Asia or from entering Bithynia. How do you think it happened? What are other possible ways it might have happened?

After Paul's vision of the Macedonian man, he and his companions concluded "that God had called us to preach the gospel to them." What parts of their conclusion went beyond the contents of the vision? How did the preceding events shape their interpretation of the vision?

3. For each of the following, tell if you have found an answer from God through that means. If your answer is yes, share an example.
